1. (S/SK/WNINTEL) In response to your request for information concerning building of interest" [REDACTED]

SG1A

a. (S/SK/WNINTEL) Source is unable to confirm the suspected [REDACTED] "the large building of interest." Source describes the general area as having several buildings of various sizes (not further identified). Activities described by source do not appear to be missile assembly related. It is possible that source was unable to access and describe information relevant to "the large building of interest" because it was impossible to determine which building in this large industrial complex was of specific interest.

b. (S/SK/WNINTEL) Source provided no further amplifying information in response to your request. It is recommended that requests for information of a similar nature include annotated photographs or similar identifying data to designate appropriate target buildings/structures.
